

Joint fundraising campaign

The Russian full-scale invasion and occupation of Ukraine is going into the second winter. Since February 2022, one-third of Ukrainians have been forced to flee their homes, and around 5 million are currently displaced within the country, while some 6,3 million are displaced as refugees abroad. It is currently one of the largest human displacement crises in the world (source: UNHCR, 2 October 2023).

MitOst members Insha Osvita, Commit and zusa have been actively coordinating and contributing to the response.

#StandWithUkraine was our first joint donation campaign dedicated to humanitarian aid and immediate relief in Ukraine.

We collected 1.421.737€. Afterwards, the tailor-made programmes and subgrants evolved to support displaced Ukrainians, which amounted to 3.5 million €. We are very thankful for the contributions of partners, friends and funders. Our response continues with supporting the urgent needs of Ukrainian civil society actors and cultural workers.

Now, we call on you again.

Currently, Insha Osvita, Commit and zusa run two programs to address urgent needs of civil society actors: Vidnova and Culture Helps.

Culture Helps

TARGET

€ 200 000

provides grant support to cultural managers and organisations that help displaced people integrate into new communities through culture. In total around € 1.4 million will be disbursed under this program. Unfortunately, due to the high need, we can only support less than 20% of qualified applications.

Mental health grants for individuals

TARGET

up to

€ 1000

Project support for organisations

TARGET

up to

€ 5000

Project support for international collaborations

TARGET

up to

€ 40 000

Vidnova

TARGET

Open

is dedicated to supporting Ukrainian civil society and it contains two program lines Vidnova Fellowship and Vidnova Lab. Vidnova Fellowship is an individually designed support program for displaced civil society actors from Ukraine that enables them to continue their work and collaborate with other partner organizations. Vidnova Lab is a networking program for actors of Ukrainian civil society that focuses on ecosystem mapping and prototyping of solutions dedicated to recovery and reconstruction of Ukraine.

→ vidnova.org

TARGET OPEN

Vidnova Fellowship Ukraine for returnees

TARGET OPEN

Vidnova Lab for Ukrainian civil Society Actors, who are contributing to solutions dedicated to the recovery of Ukraine

TARGET OPEN

Supporting the societal integration of people who were forced to leave Ukraine and are based now in Germany

Donate now

Please indicate your preferred donation target. If you don't, your donation will be equally split between the two programs.

Note

Please indicate your preferred donation target. If you don't have a preference, the two programs will split your donation equally. 100% of your donations will go to the beneficiaries.
